# **SAFETY DATA SHEET**

## **EARTHCARE PLANTING GEL**

Infosafe No.: LQ5NN ISSUED Date : 17/05/2021 ISSUED by: SEASOL INTERNATIONAL PTY LTD

## Section 1 - Identification

Product Identifier EARTHCARE PLANTING GEL

**Company Product Codes / Numbers / Unique Identifiers** 83001, 83005, 83010

Company Name SEASOL INTERNATIONAL PTY LTD

Address 1027 Mountain Highway Bayswater Vic 3153 AUSTRALIA

Telephone/Fax Number Tel: 0397214100

Emergency Phone Number 1800 335 508 (8.30am-5pm)

**Recommended use of the chemical and restrictions on use** Plant stimulant and water retention gel.

## Section 2 - Hazard(s) Identification

## GHS classification of the substance/mixture

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

## Section 3 - Composition and Information on Ingredients

#### Ingredients

Name	CAS	Proportion
Ingredients determined not to be hazardous, including water.		100 %

## Section 4 - First Aid Measures

#### Inhalation

If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms develop and/or persist seek medical attention.

## Ingestion

Do not induce vomiting. Wash out mouth thoroughly with water. Seek medical attention.

## Skin

Wash affected area thoroughly with soap and water. If symptoms develop seek medical attention.

## Eye

If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and/or persist seek medical attention.

## **First Aid Facilities**

Eyewash and normal washroom facilities.

## Advice to Doctor

Treat symptomatically.

## **Other Information**

For advice in an emergency, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor at once.

## **Section 5 - Firefighting Measures**

## Suitable Extinguishing Media

Use appropriate fire extinguisher for surrounding environment.

## **Hazards from Combustion Products**

Under fire conditions this product may emit toxic and/or irritating fumes, smoke and gases including carbon monoxide, carbon dioxide and oxides of nitrogen.

## Specific hazards arising from the chemical

This product is non combustible. However, following evaporation of aqueous component under fire conditions, the non-aqueous component may decompose and/or burn.

## **Decomposition Temperature**

Not available

#### Precautions in connection with Fire

Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA) operated in positive pressure mode. Fight fire from safe location.

## **Section 6 - Accidental Release Measures**

## **Emergency Procedures**

Wear appropriate personal protective equipment and clothing to prevent exposure. As a water based product, if spilt on electrical equipment the product will cause short-circuits.

Small spill: Mop up and wash residue to drain with copious amounts of water. Wipe up with absorbent (clean rag or paper towels). Collect and seal in properly labelled containers for disposal.

Large spill: Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

## Section 7 - Handling and Storage

## **Precautions for Safe Handling**

Avoid inhalation of vapours and mists, and skin or eye contact. Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere. Maintain high standards of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.

## Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area, out of direct sunlight. Store in suitable, labelled containers. Keep containers tightly closed. Store away from incompatible materials. Ensure that storage conditions comply with applicable local and national regulations. Protect from freezing.

## **Section 8 - Exposure Controls and Personal Protection**

#### **Occupational exposure limit values**

No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.

#### **Biological Monitoring**

No biological limits allocated.

## Control Banding

Not available

#### **Engineering Controls**

Use with good general ventilation. If mists or vapours are produced, local exhaust ventilation should be used.

#### **Respiratory Protection**

General: not required if used as intended.

Industrial application: If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapor/mist filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

#### **Eye and Face Protection**

General: not required if used as intended. However, avoid contact with eyes.

Industrial application: Safety glasses with side shields, chemical goggles or full-face shield as appropriate should be used. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 (series) - Eye Protectors for Industrial Applications.

#### **Hand Protection**

Wear gloves of impervious material for repeated contact. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations.

Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

## **Thermal Hazards**

No further relevant information available.

## **Body Protection**

Suitable protective workwear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

## **Section 9 - Physical and Chemical Properties**

Properties	Description	Properties	Description
Form	Gel	Appearance	Polymer gel
Colour	Dark brown	Odour	Not available
Melting Point	Not available	Boiling Point	Not available
Decomposition Temperature	Not available	Solubility in Water	Insoluble polymer; soluble liquid nutrients.
Specific Gravity	1.0 - 1.1 (25°C)	рН	10.5 - 11.4
Vapour Pressure	Not available	Relative Vapour Density (Air=1)	Not available
Evaporation Rate	Not available	Odour Threshold	Not available
Viscosity	Not available	Partition Coefficient: n- octanol/water (log value)	Not available
Flash Point	Not applicable	Flammability	Non-flammable
Auto-Ignition Temperature	Not applicable	Flammable Limits - Lower	Not applicable
Flammable Limits - Upper	Not applicable		

## Section 10 - Stability and Reactivity

#### Reactivity

Reacts with incompatible materials.

#### **Chemical Stability**

Stable under normal conditions of storage and handling.

#### **Possibility of hazardous reactions** Not available

**Conditions to Avoid** Extremes of temperature and direct sunlight.

## Incompatible Materials

Strong oxidising agents.

## **Hazardous Decomposition Products**

Under fire conditions this product may emit toxic and/or irritating fumes, smoke and gases including carbon monoxide, carbon dioxide and oxides of nitrogen.

## **Hazardous Polymerization**

Not available

## Section 11 - Toxicological Information

## **Toxicology Information**

No toxicity data available for this material.

## Ingestion

Ingestion of this product may irritate the gastric tract causing nausea and vomiting.

## Inhalation

Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.

## Skin

May be irritating to skin. The symptoms may include redness, itching and swelling.

#### Eye

May be irritating to eyes. The symptoms may include redness, itching and tearing.

## **Respiratory Sensitisation**

Not expected to be a respiratory sensitiser.

**Skin Sensitisation** Not expected to be a skin sensitiser.

**Germ Cell Mutagenicity** Not considered to be a mutagenic hazard.

**Carcinogenicity** Not considered to be a carcinogenic hazard.

**Reproductive Toxicity** Not considered to be toxic to reproduction.

**STOT - Single Exposure** Not expected to cause toxicity to a specific target organ.

## STOT - Repeated Exposure

Not expected to cause toxicity to a specific target organ.

Aspiration Hazard

Not expected to be an aspiration hazard.

## Section 12 - Ecological Information

#### Ecotoxicity

No ecological data available for this material.

Persistence and degradability Not available

**Mobility** Not available

**Bioaccumulative Potential** Not available

**Other Adverse Effects** Not available

**Environmental Protection** Prevent large amounts from entering waterways, drains and sewers.

## Hazardous to the Ozone Layer

This product is not expected to deplete the ozone layer.

## Section 13 - Disposal Considerations

## **Disposal Considerations**

The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations. To minimise personal exposure to the chemical, refer to Section 8—Exposure controls and personal protection.

## Section 14 - Transport Information

## **Transport Information**

Road and Rail Transport (ADG Code):

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

## Marine Transport (IMO/IMDG):

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

## Air Transport (ICAO/IATA):

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

ADG U.N. Number None Allocated

ADG Proper Shipping Name None Allocated

ADG Transport Hazard Class None Allocated

Special Precautions for User Not available

IMDG Marine pollutant No

Transport in Bulk Not available

## Section 15 - Regulatory Information

#### **Regulatory Information**

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety Regulations, Australia.

Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

Poisons Schedule Not Scheduled

Montreal Protocol Not listed

Stockholm Convention Not listed

Rotterdam Convention Not listed

**International Convention for the Prevention of Pollution from Ships (MARPOL)** Not available

Agricultural and Veterinary Chemicals Act 1994 Not available

Basel Convention Not listed

## Section 16 - Any Other Relevant Information

#### **Date of Preparation**

SDS amendment: July 2021, SECTION 1 Identification SDS amendment: May 2021, SECTION 7 Handling and Storage, SECTION 8 - Exposure Controls and Personal Protection. SDS Reviewed: May 2021 Supersedes: July 2016

Version Number 2.0
